

Overview

For more than a decade, Spinnaker Support has been one of the most trusted providers of **third-party support, managed services, and consulting for Oracle Siebel CRM**. We service Siebel releases 5.x through 8.x, and have no term limitations on support, regardless of whether Oracle has declared an End of Life to a release.

With Spinnaker Support managed services, we augment or assume complete responsibility for a range of IT operational functions and/or day-to-day technology management. We offer four distinct packages of managed services that cover your ongoing needs related to Siebel. Customers trust us to keep their applications running smoothly, securely, and in compliance, and to help them when they want to migrate their applications to the cloud.

TODAY'S CHALLENGING ENVIRONMENT

To keep their Siebel applications operating at peak performance, enterprises are seeking **better and more cost-effective external services and resources**. You want services like around-the-clock performance monitoring, improved IT function and application management, and the smooth functioning of interoperable systems – all while building a bridge between your legacy and future technologies.

Now imagine that service, support, and advice is available when you need it and how you need it, from a single vendor at a reasonable price. Imagine gaining the staffing and Siebel expertise you want without getting locked into expensive, ever-expanding projects. **That's Spinnaker Support.**

SPINNAKER SUPPORT'S MANAGED SERVICES FOR SIEBEL CRM

Spinnaker Support's managed services and skillsets encompass virtually every Siebel enterprise product and the entire surrounding technology environment. These services include application management, application development, and infrastructure operations and management. Spinnaker Support can help to augment your staff, fill capability gaps, and improve your overall operability, often with less expense.

We have built and retained a large, knowledgeable team of Oracle experts to address virtually anything in Siebel. Our resources are located in each of our international operations centers, where they support 14 languages for customers in 104 countries around the globe.

“ We like the ease of use, the ease of opening tickets, and the ability to escalate when needed. Spinnaker Support often responds within two minutes of our logging an issue, and the support skillset with Spinnaker has been so much better than our previous provider. ”

—Craig Greenholt, ITC VMO & IT Infrastructure Architect, Lexmark

SPINNAKER SUPPORT MANAGED SERVICES PACKAGES

Spinnaker Support offers four mix-and-match packages that represent specific sets of managed services. Customers can select one or more of these to suit their operational needs. The On-Demand package is an a la carte approach to support additional application, environment, and staffing needs.

PACKAGE	NEED	SERVICES
Monitor & Advise 	You want to outsource proactive, around-the-clock performance monitoring with immediate notification of performance issues your internal staff should address.	<ul style="list-style-type: none"> • 24/7 performance monitoring • Log tracking • System health checks • Issue Triage and Advisory • Timely reports
Monitor & Operate 	You want to outsource around-the-clock performance monitoring and the day-to-day management of your basic IT operational functions and technologies.	<ul style="list-style-type: none"> • All Features of Monitor & Advise Package • Fast Issue Response - Level 2 • Siebel User Administration • Backup and Recovery • Siebel File System Health • Siebel Log Health Review • Component Restarts • Perform Deployments • Performance Management
Managed XaaS 	You require managed services for your next-generation XaaS solutions, whether enterprise applications or infrastructure in the public cloud (IaaS) or as Software as a Service (SaaS).	<ul style="list-style-type: none"> • SaaS Managed Services • IaaS Managed Services
On-Demand 	You want assistance beyond what is covered in other packages. This flexible, a la carte approach to managed services supports additional application, environment, and staffing needs.	<ul style="list-style-type: none"> • Parameter Changes • Component Changes • Configuring New Components • Small Configuration Changes • Patching / Upgrades • Performance Tuning • Configuration Review • Integration with Third-Party Products • Database Assessments • Data Management • And more...

SPINNAKER SUPPORT CONSULTING SERVICES

When the need arises for external assistance on high-impact and time-intensive projects, Spinnaker Support can help. In addition to our third-party support and managed services, we provide project-based consulting services, including:

- Planning and project oversight for migrating to a different CRM platform
- Consulting engagements for Pre-Open UI or Post-Open UI
- Planning and project oversight for upgrading to newer Siebel innovation packs

HIGHEST RATED CUSTOMER SATISFACTION

In our 2019 annual customer satisfaction survey, covering the 2018 fiscal year, we reported a record **98.6% overall customer satisfaction**, which we believe is the highest in our industry. Survey results are based on more than 500 customer responses.

ABOUT US

Founded in 2008, Spinnaker Support is the only vendor to deliver a unique blend of third-party support, managed services, and consulting for Oracle and SAP. Customers consolidate their service needs with Spinnaker Support and trust us to keep their enterprise applications running at peak performance while helping them navigate from on-premise to hybrid to cloud. Spinnaker Support's award-winning blend of services span Oracle E-Business Suite, JD Edwards, Siebel, Oracle Database, Oracle Technology and Middleware products, Hyperion, Demantra, Agile PLM, ATG/Endeca, and more.
